	20:45	2-3 hrs	<b>Animals of the Night</b> – spotlighting in the forest with Dr Stuart Davey & Dr Peter Pridmore (LaTrobe University)	10+

 The London Shed will be the meeting point for all activities.

 Transport from the Campus will be needed to get to the starting point of the following activities – Exploring rock pools, Geology of the South Coast, Animals of the Night and Aboriginal Pre-history.

 Carrying a *water bottle, wearing sunscreen and enclosed shoes* is recommended for those taking part in all activities involving walks (including rock pools).

 All children must be accompanied by a responsible adult.

 January is the height of the tick and leech season on the South Coast, spraying with a personal insecticide, in particular BUSHMAN, or RID, also helps prevent insect and tick bites. It is strongly recommended that visitors taking part on walks and spotlighting *wear long trousers, socks and enclosed shoes*.
